CAREER OBJECTIVE

I am an enthusiastic Full Stack Developer with a strong academic background in Computer Science and Engineering. I enjoy designing and developing intuitive, dependable web applications using current frontend and backend technologies. I adapt well to collaborative environments, take responsibility for my tasks, and consistently aim to build efficient, high-quality solutions that solve real user problems.

EDUCATIONAL QUALIFICATION

Belfield Matric Higher Secondary School - Kanyakumari | Higher Secondary

12th Grade

GPA: Percentage: 89.9%

Sri Krishna College of Technology - Coimbatore | Bachelor of Engineering

Computer Science and Engineering GPA: CGPA:

8.1 / 10

TECHNICAL SKILLS

- C++ and Java
- HTML and CSS
- Spring Boot and Node.js
- JavaScript and TypeScript
- React.js and Next.js
- MySQL

PROJECTS

Hospital Management System

Developed a web-based application to manage hospital operations including patient records, appointment scheduling, and staff information. Built a responsive user interface using **React** and implemented secure **RESTful services with Spring Boot** to handle backend logic and data processing.

Fashion Forward Application

Designed and developed a backend-driven fashion application using **Spring Boot and REST APIs** to manage product listings, user interactions, and efficient data flow. Focused on scalable backend architecture and seamless API communication.

Pet Adoption Management System

Built a full-stack application to streamline the pet adoption process, including pet listings and adoption request management. Implemented the frontend using **React**, backend services using **Spring Boot & REST APIs**, and managed persistent data using **MySQL**.

EXPERIENCE

FULL STACK DEVELOPER INTERN | 05/2025 to 06/2025

ANS Technological Solution

- During my internship at ANS Technological Solution, I contributed to the development of LeedNext, a student learning platform.
- I worked on backend development using Java, Spring Boot, REST APIs, and MySQL, and built responsive user interfaces using ReactJS, HTML5, and CSS.
- Implemented secure authentication mechanisms and role-based access control to ensure application security.
- I also collaborated closely with an Agile team, followed clean code practices, and used Git for version control throughout the development process.

CERTIFICATIONS

NPTEL

- Effective Writing
- Cloud Computing
- Mobile Virtual Reality and Artificial Intelligence

INFOSYS SPRINGBOARD

- Computing Theory
